Personal Achievements

Participated in the Cloudinary Hackathon 2023 with the project 'Redim' vscode extension, where my project ranked among the top 10 out of 73.
Redim is a vs code extension to optimize images using commands.The product is available on the vscode Marketplace.

Education

Tecnológico Nacional de México campus Hermosillo
Bachelor of Electronics Engineering   August 2017-February 2022

Extracurricular project: As a participant in the Mexican Robotics Tournament, specifically in the Latin American Robotics Competition (LARC) category, my duties revolved around team coordination and computer vision. Unfortunately, the pandemic brought an early end to the competition.
